**McLEAN COUNTY**  
**PARTNER AGENCY: OHIO COUNTY EQUESTRIAN, INC.**

McLean Co. School system and Ohio Co. Equestrian go back several years! Thanks to one of our parents who decided to become a school teacher. We are very fortunate to have several of the school staff who accompany students on their trips to our facility. They are always eager to help out at our annual challenge of the schools event held in late October. This is a tremendous advantage for everyone. The students trust the teacher and assistants and immediately there is less anxiety for the new riders. Most of the staff coming from this school are or have been “horse people”. So, this really makes our success rate with students from this school really high. At least once a year the program treats the entire class to lunch at a local restaurant just to get to know and observe riders in a different setting. One student started riding once a week in the evening now because he was introduced to this program by his teachers. United Way pays for program insurance and what is left over goes for horse feed and supplements. Without insurance we just would not be able to operate.
