

UNITED WAY OF THE OHIO VALLEY
OHIO COUNTY
PARTNER AGENCY: IMAGINATION LIBRARY

The Imagination Library program continues to grow and thrive. The Ohio County School district partners with McDonald's in order to fully implement the Imagination Library Program. McDonald's role is that of inputting data for the program. Parents/guardians complete an application and submit them to our local board of education, and then McDonald's input the child's information into the Imagination Library database. This partnership has expanded beyond just data input to recently the school district partnering with McDonald's to offer a Kindergarten Kick Off event. I believe that the connection that our school district has made with McDonald's is and will continue to make a difference for our students. While spending time at events such as our Kindergarten Kick Off event and Celebrate the Child parents often come and share how much their children enjoy receiving the Imagination Library book each month. Advocates working in the homes of our preschool students also share that often they notice that the Imagination Library books are the only books many children have in their homes. The Imagination Library Program provides high quality literary experiences for both parent and child. Ohio County School District is dedicated to not only teaching children to read, but to instill a love of reading and learning. The Imagination Library Program is an excellent start.

WHAT DIFFERENCE WILL YOUR INVESTMENT MAKE?

With your investment of \$100 **Imagination Library** can:

- Provide monthly Imagination Library books to two children for a year
