

**UNITED WAY OF THE OHIO VALLEY
UNION COUNTY
PARTNER AGENCY: BUILDING STRONGER FAMILIES**

Mom and her young daughter were referred by the health department for services. Mom was having issues with getting her daughter to behave while receiving services. The home visitor gave this family unit mostly positive scores with only low scores in parental capabilities. Mom did many things well, but she was unwilling or unable to set limits with her daughter and was trying to bribe her to get her to behave and it was not working. The home visitor worked with mom on setting and enforcing limits. At first the child became more defiant but then began to settle down and behave. By closure, the child's behavior was much improved. Mom was able to get child to follow instructions in a firm calm manner without bribing or pleading. The score in parental capabilities improved tremendously.

WHAT DIFFERENCE WILL YOUR INVESTMENT MAKE?

With your investment of \$100 **Building Stronger Families** can:

- Provide six families with curriculum workbooks
- Provide 230 miles of travel in employee's personal car to reach families' homes
- Provide two families with assessment time
