

UNITED WAY OF THE OHIO VALLEY
WEBSTER COUNTY
PARTNER AGENCY: BUILDING STRONGER FAMILIES

This is a family of two parents and three children. They were referred for services for insufficient supervision for children of their age. At assessment, parents acknowledged they didn't know what they did was wrong and would not do it again. They wanted to participate. They had a low score in parental capabilities. The parents both participated in the curriculum. Mom enforced the chore charts and behavior charts. On a few occasions, the home visitor was told she could not do the activity with the children that day because they were finishing their chores. The children would comply. The whole family dynamics improved with the family working closely together and the house was organized and clean. The parents supervised the children appropriately. At closure, the score had improved in parental capabilities. The children were living in a safe, nurturing home and the parents set aside quality time daily to spend with the children.

WHAT DIFFERENCE WILL YOUR INVESTMENT MAKE?

With your investment of \$100 **Building Stronger Families** can:

- Provide six families with curriculum workbooks
- Provide 230 miles of travel in employee's personal car to reach families' homes
- Provide two families with assessment time
